APPENDIX

Changes to Claims:

The following are marked-up versions of the amended claims:

18. (Amended) Electronic equipment comprising:

a data transfer control device as defined in claim 1 ~~any of claims 1 to 3, or 12, or 15;~~

a device which performs given processing on data that has been received from another node through the data transfer control device and a bus; and

a device which outputs or stores data that has been subjected to processing.

19. (Amended) Electronic equipment comprising:

a data transfer control device as defined in claim 4 ~~any of claims 4 to 9, or 13, or 16;~~

a device which performs given processing on data that has been received from another node through the data transfer control device and a bus; and

a device which outputs or stores data that has been subjected to processing.

20. (Amended) Electronic equipment comprising:

a data transfer control device as defined in claim 10 ~~any of claims 10, 11, 14, or 17;~~

a device which performs given processing on data that has been received from another node through the data transfer control device and a bus; and

a device which outputs or stores data that has been subjected to processing.

21. (Amended) Electronic equipment comprising:

a data transfer control device as defined in claim 1 ~~any of claims 1 to 3, or 12, or 15;~~

a device which performs given processing on data that is to be transferred to another node through the data transfer control device and a bus; and

a device which takes in data to be subjected to processing.

22. (Amended) Electronic equipment comprising:

09/787077 2202860

a data transfer control device as defined in claim 4~~any of claims 4 to 9, or 13, or 16;~~

a device which performs given processing on data that is to be transferred to another node through the data transfer control device and a bus; and

a device which takes in data to be subjected to processing.

23. (Amended) Electronic equipment comprising:

a data transfer control device as defined in claim 10~~any of claims 10, 11, 14, or 17;~~

a device which performs given processing on data that is to be transferred to another node through the data transfer control device and a bus; and

a device which takes in data to be subjected to processing.
